

Regional Cancer  
Partnership  
of Illinois

Prostate cancer is one of the leading cancers among men—early detection allows for more treatment options.

# FREE Prostate Cancer SCREENING

Wednesday, September 18, 2019 | 5–7 p.m.

Simmons Cancer Institute—SIU Medicine | 315 W. Carpenter St. | Springfield, IL 62702

## Who should consider screening:

- ▶ Men 55–69
- ▶ Men with no history of prostate cancer
- ▶ Men not under the routine care of a urologist
- ▶ Men over age 40, if there is a family history of a father, brother or son diagnosed with cancer
- ▶ African-American men over 40; these men have two times the risk of dying from prostate cancer than men of any other race.

The Regional Cancer Partnership is offering **FREE** PSA blood tests, physician-performed digital rectal exams and blood pressure readings.

Registration is required. Please call **217-788-3528** to register for the event. Preregistration will begin on Sept. 2. Callers can leave a message if no one is available.
