June 12, 2020

Good evening,

Today, we had zero Sangamon County positive cases. One hundred ninety three residents tested negative and another 16 have recovered. Two Sangamon County COVID-19 positive people remain hospitalized. Three more Menard County residents have tested negative.

Since I have taken us on a musical path, I wondered how many people have seen this graphic. It describes a super-spreading event that occurred in March 2020. A 2.5 hour choir practice with 61 people participating resulted in 32 confirmed and 20 probable cases of COVID-19.

If you would like to read the report: https://www.cdc.gov/mmwr/volumes/69/wr/mm6919e6.htm

More answers to the question,
If my COVID-19 experience were summed up in the title of a song, it would be......

Six Feet Apart: Luke Combs
Be a Light: Thomas Rhett
Wake Me Up When September Ends: Green Day
Out of This Out of That

From the Contact Tracers...

I Heard it Through the Grapevine: Gladys Knight and the Pips – for those of us who are asking about what a case/contact have been doing and are not told the truth or whole story
What’d I Say: Ray Charles – for those who don’t follow the guidelines after we have explained it more than once
We Gotta Get Out of This Place: The Animals - for those on isolation and quarantine
I Still Haven’t Found What I’m Looking For: U2 - for those of us looking for contacts and other information

There are still more songs to share.

Until Monday,

Gail

Gail O’Neill
Director of Public Health
Sangamon County Department of Public Health
